THE GREAT FAMILY PAPER.

The New-York Ledger

FOR THE NEW YEAR, 1878.

The LEDGER for the year to come will be conducted on the same principles as it has been heretofore—only, if possible, it will be made still better.

Our rule is to carry no dead weight, but to spread before our readers the newest and the best that money expended without stint will buy.

The LEDGER has been too long established to require of us any specific promises for the future. We leave nothing in our power undone for the gratification and instruction of our subscribers.

Many of those who were children when they first began to read the LEDGER now have children of their own, and some of them grandchildren, who read their favorite paper. There could hardly be a stronger testimonial to the excellence of its character than is thus given to the LEDGER by the regular renewal of these subscriptions.

Our great exertion for the coming year will be to make a volume that will be superior to the best of its predecessors.

The LEDGER is always alive and fresh, and full of interest.

The stories for the coming year will be by the most popular of our old writers and the best of the new writers who have occasionally contributed to our columns.

The miscellaneous articles by eminent scholars and divines will be continued: so will our accurate scientific department.

We shall reply, as heretofore, to the innumerable questions sent to us on love and domestic affairs, and every variety of subject.

Wherever the LEDGER goes—and it goes nearly everywhere—it is generally conceded there is not a reader to whose happiness it does not minister.

Our subscribers will have no postage to pay. We prepay the postage on every paper that we mail.

OUR TERMS FOR 1878.—POSTAGE FREE.

Single copies, $3 per annum; four copies, $10, which is $2 50 a copy; eight copies, $20, *postage free.* The party who sends us $20 for a club of eight copies (all sent at one time), will be entitled to a copy *free.* Postmasters and others who get up clubs in their respective towns, can afterward add single copies at $2 50. No subscriptions taken for a less period than one year. When a draft or money-order can conveniently be sent, it will be preferred, as it will prevent the possibility of the loss of money by mail. Remember that the postage on the LEDGER to all parts of the country will be paid by us, so that our subscribers will have no postage to pay.

"The Leading American Newspaper."

The New-York Tribune for 1878.

THE TRIBUNE has long enjoyed the distinction of the largest circulation among the best people. During the year 1878 it will spend more labor and money than ever before to deserve that preëminence which it secured and means to retain by becoming the medium of the best thought and the voice of the best conscience of the time, by keeping abreast of the highest progress, favoring the freest discussion, hearing all sides, appealing always to the best intelligence and the purest morality, and refusing to cater to the tastes of the vile or the prejudices of the ignorant. The continued popular approval, and the constantly widening political influence it enjoys, are the best proofs that it is still faithful to these early secrets of its strength.

THE TRIBUNE earnestly strove for the election of President Hayes, and it gives its heartiest support to the high purposes of his Administration. Doubting the wisdom of methods sometimes taken by his subordinates, and criticising with entire freedom his occasional mistakes, it still thinks it the duty of the hour to hold together and strengthen the party that elected and alone sustains him. It believes that the day of danger to the negro has passed, and that of danger to the tax-payer has come. The Solid South (at last in full control of every Rebel and Border State) sees its chance to get at the National Treasury, and get back what it lost by the war. Only forty-seven Northern votes are needed. If Tammany Hall could furnish New-York, then Indiana, or Connecticut and New-Jersey, would suffice. The danger is upon us; and against it the old party of freedom, still the party of the churches and the school-houses, is the only bulwark. It alone can keep the Solid South from grasping the National Government in 1880. It alone can save us, even now, from the threatened Democratic abandonment of resumption and renewed debasement of the currency, which would needlessly and most wickedly check the revival of business, and treble the country's burdens. In behalf of the old party, therefore, THE TRIBUNE renews the old appeal to the National conscience, the National honor, and the enlightened self-interest of the tax-payers.

THE TRIBUNE spares nothing that can help maintain its preëminence as a newspaper. Its Washington dispatches are incomparably the fullest, most exact and graphic anywhere printed. It keeps at the head of its London Bureau the veteran GEORGE W. SMALLEY, recognized by the press everywhere as the foremost of foreign correspondents. At every important centre of news, abroad or at home, it maintains the best representatives it can find. Its exceptionally full scientific intelligence is carefully prepared by experts. It furnishes weekly a more complete collection of religious news than the religious papers themselves, prepared exclusively for it by the Rev. Dr. GEORGE R. CROOKS, late Editor of *The Methodist*. Its staff is still mainly composed of the old associates of Mr. Greeley. Where age and disease have made it necessary to fill gaps, natural affinity and a lavish outlay have combined to draw into its service for the vacant places the foremost men of the profession.

THE SEMI-WEEKLY TRIBUNE

Combines many of the merits of both the Daily and Weekly issues, and is, in some respects, the best, as well as the cheapest paper sent out from THE TRIBUNE Office. It contains all the literary, agricultural, and domestic miscellany, and all the special articles prepared for THE WEEKLY. It has besides nearly all the news of THE DAILY, and most of its editorial articles not strictly local in their application. It has been enlarged, and changed to the new sixteen-page form.

NO RIVALS TO COMPARE WITH IT.

THE WEEKLY or SEMI-WEEKLY TRIBUNE is now utterly unlike any other weekly newspaper issued from the office of a daily in New-York, or in the country—larger, in different and better form, in better type, and filled with matter prepared expressly for its readers—not with the stale news dumped in from THE DAILY. It can only be compared with the three and four dollar weeklies, like *Harper's* or the great religious and literary journals. Its price, however, remains fixed at such low rates, as to defy competition, and the extraordinary premiums surpass anything even in its own history.

TERMS OF THE TRIBUNE.—Postage Free in the United States.

"The Leading American Newspaper."

The Weekly Tribune.

This has been for a third of a century the favorite paper for our substantial country population. A competent critic has said of it: "THE WEEKLY TRIBUNE has done more for the settlement and prosperity of the Great West, and has made more good farmers and good citizens than any other single influence that ever existed in this country." During the ensuing year it means not only to preserve all its old merits, but to take a long stride ahead. By the introduction of $30,000 worth of new machinery, and by an enlargement of its size (making it the largest single sheet issued by any paper in the country), it is enabled to give subscribers what they have so long asked—their favorite paper in a shape easier to read and convenient for binding. Each issue consists of sixteen pages, of the form and general appearance of *Harper's Weekly*, but with pages considerably larger, and with unusually large and clear type. All the old and standard features are carefully preserved, while the new form and additional size enable us to offer the following among many

NOVEL AND SPECIAL ATTRACTIONS:

I. A graphic series of articles on "Domestic Life and Habits Abroad," by BAYARD TAYLOR.

II. A few papers on "Current Topics from the Christian Minister's Point of View," by the Rev. JOHN HALL, D. D.

III. Occasional contributions on "Political Problems and Promises," by GAIL HAMILTON.

IV. "A Northern Farmer on Southern Agriculture," by SOLON ROBINSON.

V. "Life and Sights in New-York," by Veterans of the City Staff.

These articles will not be mere reproductions from the daily paper. They will be prepared expressly for THE WEEKLY TRIBUNE, and will first see the light in its columns.

UNEXAMPLED PREMIUM.

WEBSTER'S TWELVE-DOLLAR UNABRIDGED DICTIONARY FREE.

THE TRIBUNE makes to its old subscribers an extraordinary offer. It will give them THE WEEKLY TRIBUNE for five years, post paid, and a copy of the great standard Webster's Unabridged Dictionary, in leather binding, 1,836 quarto pages, with 3,000 engravings, both for $10—being $2 less than the cost of the Dictionary alone at any book-store! If the old subscriber prefers, he need pay for THE WEEKLY only two years for himself, by sending three new subscribers for one year each. In either case the remittance of $10 secures five years' subscription for THE WEEKLY TRIBUNE. Any old subscriber to THE SEMI-WEEKLY TRIBUNE can avail himself of the same offer by sending the regular price of that issue for five years' subscription, $15, in the same way. Thus, any subscriber renewing his subscription for five years, at the regular rate to single subscribers (or renewing for only two years and getting three new subscribers) gets five years of his favorite paper for nothing, and the great Dictionary for $2 less than its regular price; or he gets his paper at the regular price, and the great Dictionary for nothing—whichever way he pleases to count it!

Premiums to Friends getting up Clubs for 1878.

For a Club of 5 Weeklies, any five TRIBUNE Novels.

For a Club of 10 Weeklies, an Extra Copy of THE WEEKLY, *or* a copy of the Greeley Memorial Volume, in cloth, *or* any eight of THE TRIBUNE Novels.

For a Club of 20 Weeklies, THE SEMI-WEEKLY TRIBUNE, *or* one extra WEEKLY, *and* either Mr. Greeley's "Political Economy," *or* "What I Know About Farming" ($1 50 each at retail).

For a Club of 30 Weeklies, THE SEMI-WEEKLY TRIBUNE *and* any eight of THE TRIBUNE Novels; *or* Mr. Greeley's "Recollections of a Busy Life," in sheep ($2 50 at retail), *and* the same Novels.

For a Club of 50 Weeklies, THE DAILY TRIBUNE one year *and* either of the above-mentioned books, *or* the series of TRIBUNE Novels.

[One Semi-Weekly will count as two Weeklies in the above. Double numbers of THE TRIBUNE Novels count as two.]

These premiums are better than THE TRIBUNE has ever offered before, and are believed to be better and more attractive than any that can be offered by any other responsible establishment. For further information, posters and specimen copies, address simply—

The greatest eastern elongations of Mercury take place March 29, July 27 and November 20; its greatest western elongations are: January 16, May 14, September 9 and December 28. Venus is at her greatest eastern elongation July 16, and at her greatest western elongation December 4.

Eclipses of Jupiter's Satellites.

The Eclipses of Jupiter's Satellites have been carefully calculated and the times of their disappearance and reappearance set down in the National Ephemeris. They are useful in furnishing local time where the longitude is known, or the longitude where correct local time is known. In the following table are given the phases of the eclipses visible here, with the Washington mean time of their occurrence. Between conjunction and opposition the shadow of Jupiter lies to the west or right of the planet (by direct vision), where the phenomena should be looked for. After opposition the satellites disappear, and reappear on the east or left-hand side of the planet.

TEXT OF THE FISHERIES AWARD AT HALIFAX, NOVEMBER 23, 1877.

The undersigned, Commissioners appointed under Articles XXII and XXIII of the Treaty of Washington, of the 8th of May, 1871, to determine having regard to the privileges accorded by the United States to the subjects of Her Britannic Majesty, as stated in Articles XIX and XXI of said treaty, the amount of any compensation which in their opinion ought to be paid by the Government of the United States to the Government of Her Britannic Majesty in return for the privileges accorded to the citizens of the United States, under Article XVIII of the said treaty—having carefully and impartially examined the matters referred to them, according to justice and equity, in conformity with the solemn declaration made and subscribed by them on the 15th day of June, 1877,

Award the sum of $5,500,000 in gold, to be paid by the Government of the United States to the Government of Her Britannic Majesty, in accordance with the provisions of the said treaty.

Signed at Halifax, this 23d day of November, 1877. MAURICE DELFOSSE.
A. T. GALT.

The United States Commissioner is of opinion that the advantages accruing to Great Britain under the Treaty of Washington are greater than the advantages conferred on the United States by said treaty and he cannot therefore concur in the conclusions announced by his colleagues.

And the American Commissioner deems it his duty to state further that it is questionable whether it is competent for the Board to make an award under the treaty except with the unanimous consent of its members. E. H. KELLOGG,
Commissioner.

MAINE.—These two proposed amendments were submitted at the election in September, 1877:

"No person shall vote at any election in this State, unless he has paid a poll-tax within two years preceding the election in which he proposes to vote, provided said tax has been legally assessed upon him."

"No city or town shall hereafter create any debt or liability, which, singly, or in the aggregate with previous debts or liabilities, shall exceed 5 per cent of the last regular valuation of said city or town; provided, however, that the adoption of this article shall not be construed as applying to any fund received in trust by said city or town, nor to any loan for the purpose of renewing existing loans, or for war, or to temporary loans to be paid out of money raised by taxation during the year in which they are made."

The vote on the former was: For, 20,530; against, 25,242; and it was rejected. The latter was adopted: For, 39,300; against, 5,882.

MICHIGAN.—Two amendments were submitted to vote of the people, April 1, 1878. Section 12 of article 6, as follows:

"The clerk of each county organized for judicial purposes shall be the clerk of the Circuit Court of such county, and of the Supreme Court when held within the same."

Was proposed to be amended so as to read thus:

"The justices of the Supreme Court shall appoint the clerk of said court, and the clerk of each county organized for judicial purposes shall be clerk of the Circuit Court of such county."

Section 7 of Article 15, as follows:

"The stockholders of all corporations and joint stock associations shall be individually liable for all labor performed for such corporation or association."

Was proposed to be amended so as to read thus:

"The stockholders in all corporations and joint stock associations shall be individually liable in an amount equal to the par value of their respective shares which they own or have owned in such corporations or associations for all labor done in behalf of such corporation or joint stock association during the time of their being such stockholders."

They were both defeated. The vote on the former was: Yeas, 30,313; nays, 34,712. On the latter: Yeas, 27,770; nays, 42,064.

PARTY PLATFORMS, 1878.

Connecticut Republican.

[Adopted September 23.]

* * * That the bonds of the United States and the legal-tender notes issued under the necessities of the war, are sacred debts to be paid to the last dollar in the standard money of the world; that the only money recognized in the Constitution or in the exchange of the world is gold and silver coin of the weight and fineness which give it universal currency; and we demand that all currency shall be redeemable in coin at the will of the holder, and that both coin and currency shall be kept at par with the gold standard of the world.

That the issue of legal-tender notes was only justifiable by the necessities of the war, and that any attempt to lower the standard of money, to increase the volume of irredeemable paper currency, to make the money of the people unstable, or to deteriorate the coin, is simply repudiation, and that we declare that a reissue of legal-tender paper in a time of protound peace would be without excuse and a gross violation of the Constitution of the United States, and therefore we demand actual resumption of specie payments at the time fixed by law, and that Congress shall do no act to delay it, but shall leave the country free in its reviving prosperity. * * *

Connecticut Democratic.

[Adopted September 17.]

That the Constitution of the United States recognizes gold and silver as the standard money of the Union; and this standard is the most stable basis for the commercial necessities of the world. The Democratic party of the Union has never failed to recognize and support this essential principle. A great and costly war, and Republican financial fraud and corruption, brought an irredeemable currency, under which prices of every commodity have fluctuated, industrial interests have suffered, labor has been deprived of its just reward, and many business men brought to bankruptcy; but the laws of trade, with a large balance of foreign exchange in favor of this country, have brought us to the door of a redeemable currency and a sound basis for an improved and prosperous state of affairs, which will place the creditors and debtors of the Government on the same financial plane.

That the Resumption Act, so called, was in its inception unwise, uncalled for, and not demanded at the time of its enaction by

those laws of trade which govern with unerring certainty the finances of a country; and having confidence in the Senators and Representatives of this State in the Congress of the United States, we unhesitatingly rely upon their integrity and judgment, believing that they will be controlled in their action upon the question of resumption by those well-known principles which underlie the necessities of commerce and the best interests of the people of this State.

We condemn all repudiation, and demand an honest and just payment of the public debt. We denounce the financial policy of the Republican Administration as the direct and shortest way to universal bankruptcy and total repudiation. We declare whatever currency is issued should be for the benefit of the whole people. * * *

Delaware Democratic.

[Adopted August 6.]

* * * That in accordance with the time-honored and Constitutional faith of the Democratic party, we hold that the only honest and lawful money of the people of the United States is gold and silver coin, or a paper currency convertible into such coin at the will of the holder.

Indiana Republican.

[Adopted June 5.]

The Republicans of Indiana, in convention assembled, make the following declaration of principles:

The maintenance of the great principles of the Republican party is essential to the peace, permanency and prosperity of the Nation; the right of the people to meet together and discuss grievances to be jealously guarded and maintained, but determined opposition to lawlessness, or to any resort to force and violence as subversive of the public peace, injurious to public morals, and destructive to the rights and interests of all classes; equal rights before the law, and equal protection under the law, without regard to race, creed, condition or occupation; no exclusive privileges to individuals or classes; * * * the common school system to be cherished and perfected, and to that end the school fund should not be diverted to sectarian purposes; * * * a Constitutional amendment providing for strict registration and election laws; * * * American industries to be encouraged and fostered by such legislation as will develop the material resources of the country and give full measure of employment and reward to labor; opposition to repudiation in all its forms; the honor and credit of the Nation to be maintained in every contingency; no abandonment of greenbacks or depreciation of greenback currency; a sound and stable currency of gold, silver and paper of the same value; National legislation authorizing the receipt of greenbacks at par in payment of customs and in purchase of Government bonds; opposition to further financial agitation, stability in our finance system being essential to business prosperity.

Indiana Democratic.

[Adopted July 20.]

That we demand that the National bank notes shall be retired, and in lieu thereof shall be issued by the Government an equal amount of Treasury notes with full legal-tender quality; that we are in favor of making United States notes, commonly called greenbacks, a full legal-tender, in payment of all debts, public and private, except such obligations only as are by the terms of the original contract under which they were issued expressly payable in coin; that the right to issue paper money as well as coin is the exclusive prerogative of the Government, and such money should be issued in such amount as the sound business interests of the country may from time to time require.

That we are in favor of such legislation by Congress as will authorize the taxation by the States of United States notes in common with all other money.

That we deem it unwise and inexpedient to enact any further legislation for the funding of the National debt abroad, through the means of home syndicates or other methods, and we believe the true policy of the Government and the best interests of the people would be subserved by legislation so as to distribute said debt among our people at home, affording them most favorable and practical opportunities for the investment of their savings in the funded debt of the United States. * * *

That we demand the restoration of the silver dollar of 412½ grains to the country, and with full legal-tender quality, in payment of all debts, both public and private, and that the coinage thereof shall be unlimited, and upon the same terms as may be provided for the coinage of gold.

That we are in favor of the immediate and unconditional repeal of the Resumption Act. * * *

That the Democratic party is the friend of the common school system, and will in every legitimate way labor for its success, and will oppose any attempt to divert any portion of the common school fund to any sectarian purpose.

Louisiana Democratic.

[Adopted August 6.]

The Louisiana Democracy demand that the National banking system be abolished and National bank notes retired, and in lieu thereof that the Government of the United States issue an equal amount of Treasury notes, commonly known as greenbacks. We also demand the unconditional repeal of laws imposing a tax upon the circulation of State banks. We demand, also, the immediate and unconditional repeal of the Resumption Act, and are unalterably opposed to the ruinous policy pursued by the Republican party, whereby the volume of currency has been contracted far below the business requirements of the country, and failures, depression of business, scarcity of labor and pauper wages have been entailed. That it is the sense of this convention that all the bonds and obligations of the National Government should be paid in legal-tender greenback notes of the United States, except where it is otherwise provided in the original law under which they were issued. We further demand the repeal of all laws passed subsequent to the original law creating the public debt, by which obligations of contract have been made more onerous.

Maine Republican.

[Adopted July 30.]

* * * The Constitution of the United States declares that the citizens of each State are entitled to all privileges and immunities of citizens in the several States, and we hold it to be a primary and sacred duty of the National Government to protect and maintain the exercise of all these civil, political and public rights by every citizen of the United States. As Republicans we are solemnly pledged to maintain these principles, and until they are cheerfully obeyed, and, if need be, vigorously enforced, the work of the Republican party is unfinished.

The Republican party is committed to unremitting efforts, not only to secure the legitimate results of the war—the sovereignty of the Union, the equal rights of all citizens, and free and untrammelled rights of suffrage—but also to redeem the pledges which the Government made to those who furnished means or gave their services to save the Union, whether these pledges are in the form of bonds or greenback notes. We insist that both forms of the debt of the Nation shall be paid with the same fairness and integrity with which an honest man seeks to pay his individual debts.

We demand honest money for the people. Our currency must be made as good as coin and redeemable in it. The Government promised this. The Republican party has legislated to perform it, and in the course of resumption it is now nearly accomplished. There must be no steps sideways or backward. * * *

Maine Democratic.

[Adopted June 18.]

We demand the payment of the bonded debt of the United States as rapidly as practicable. No further issue of Government bonds, whereby equal taxation with the other property of the country is avoided. We are opposed to an irredeemable currency, but believe in a currency for the Government and people, the laborer and office-holder, the pensioner and soldier, the producer and the bondholder. We are opposed to the present National banking system, and in favor of the gradual substitution of greenbacks for National bank bills.

Massachusetts Republican.

[Adopted September 18.]

* * * That the Republican party is committed to the maintenance of the National credit and the keeping of the public faith with all creditors of the Nation. We rejoice that the resumption of specie payments has been so nearly accomplished. We insist that all lawful means shall be taken to insure such resumption within the time fixed and by law; that all paper currency shall be redeemable in coin at the will of the holder, and that both coin and currency shall be kept at all times at par with the gold standard of the commercial world. We believe that the American people are too honest wantonly to violate their pledges; are too intelligent to attempt to use as money anything which has neither value in itself nor represents value; and have too much regard for their honor and prosperity to prefer unredeemed and irredeemable promises instead of money which shall pass current at its full face value in every market of the world.

That the refunding of the National debt at a lower rate of interest should be carried forward as rapidly as is possible; that the strictest economy in expenditures should be used and the industries of the country relieved from taxation, so far as honor, good faith and necessity will permit; that the civil administration should be maintained in its honest and efficiency by the Executive Department, which should take the responsibility which belongs to it, of making nominations to office without dictation or control from other departments of the Government, and should in the exercise of this power use the same care and good judgment and demand the same fidelity and devotion to duty that are required in the management of important business affairs, and we will cordially support every measure which shall be needed to raise the civil service to the high plane of honesty and efficiency demanded by the Cincinnati platform and the President's letter of acceptance. * * *

That the Commonwealth of Massachusetts has prospered for more than two centuries because her citizens have believed that the interest of each is the interest of all, and have labored together for the common weal, and when this union of interest and action which has endured through seasons of depression and disaster ceases, her prosperity must cease also. They who would foment discord by falsely teaching that our community is composed of hostile classes whose interests are antagonistic, are public enemies whose defeat is essential to the public welfare, and should be accomplished by the united efforts of all honest men.

That the success of the bold attempt to place an open repudiator in the Executive chair of this renowned Commonwealth would be an announcement to the world that for the first time in her history Massachusetts wavers in her devotion to honest finance, and is indifferent to the sacredness of public faith. * * *

Massachusetts Democratic.

[Adopted September 25.]

* * * The scheme initiated and carried into effect by the Republican party of providing a paper currency not redeemable in coin, and compelling the people to receive the same in payment of debts, is without authority of the Constitution. Congress has no power to make anything, unless it be gold and silver, legal-tender. Whatever power it may have to authorize the issue of notes to circulate as money, whether issued directly from the Treasury, or indirectly through the banks, should be exercised only subject to certain restrictions: 1. That no executive office of the Government should have discretion to enlarge or control the volume of currency. 2. That the total amount of currency authorized should be fixed by law. 3. That whatever that amount, it should be one that shall at every moment be redeemable in coin. 4. That all coins of the same denomination shall be as nearly as possible of equal value. 5. That whatever currency is issued by the Government shall be receivable by the Government in payment of public dues at its face value. * * * The Democrats of Massachusetts renew their demand for the extending of the right of suffrage to all citizens of the United States, residents of Massachusetts, without restriction by Constitutional or legal enact-

ments. Prepayment of a poll tax as a qualification for voting is in violation of every principle of equal rights, and ought no longer to be required; and while we favor all reasonable regulations to protect the purity of the ballot, we declare that the laws passed by Republican Legislatures in recent years, tending to hinder and obstruct the most ample exercise of the elective franchise by our citizens, deserve the condemnation of all lovers of true liberty and free suffrage.

Massachusetts Independent Greenback

[Adopted September 11.]

* * * That we demand the immediate repeal of the Resumption Act, so that the periodical carnivals of bankruptcy may forever come to an end, and that our National wealth be made the fixed and reliable foundation of our monetary system, forever banishing from America the idiotic propositions of making commodities of shifting values and articles of merchandise like gold and silver, a basis for money—a basis that ever has, as in 1813, 1831 and 1857, and ever must, periodically slip out from under such a monetary system, thereby destroying it, and plunging the country into ruin and bankruptcy; a basis that even England has never been able to maintain for any great length of time, although she is the creditor nation of the world.

That the United States shall never issue any more interest-bearing bonds unless the same are authorized by a direct vote of the people, and those issued during the war of the rebellion shall be paid as fast as they mature, according to the terms of the contract which authorized and created that indebtedness of the people; and what that contract is shall be submitted to the decision of the Supreme Court of the United States, and that all subsequent acts which impair and change the original contract are hereby denounced as creatures of corruption and repudiation that must be repealed.

That the Labor Bureau should be sustained, its field of operation enlarged, and its officers selected from those engaged in industrial pursuits and having the confidence of the industrial classes of the Commonwealth for the purpose of obtaining reliable statistics upon which to form a basis for intelligent legislation on labor questions, especially with regard to the hours of labor, which should be reduced in proportion as the use of machinery increases, and in conformity with other causes which throw wage-workers out of employment.

That land of equal productive capacity shall be subject to equal taxation, whether cultivated or not, to the end that the land monopolists in the future may be held in check, and that the public domain may be preserved to the actual tiller of the soil * * *

New-York Republican.

[Adopted September 26.]

The Republicans of New-York, appealing to twenty years of struggles and triumphs as the proof of Republican patriotism and fidelity, and meeting the high demands of the hour in the same unfaltering spirit which saved the Union and established it on the firm foundations of freedom, make the following declarations:

The faith of the Nation is sacredly pledged to the payment of the public debt and the redemption of the public promises, according to the letter and the spirit of the engagement; and our good name and well-being require that the Nation's honor shall be kept as inviolate as the Nation's life.

Under the management of succeeding Republican administrations the country has advanced to the point of specie resumption, and the highest interests of business no less than the plighted faith of the Republic demand that there shall be no step backward and no postponement. With this steady progress we hail the auspicious signs of reviving trade and industry, and congratulate the people upon this practical evidence that if the good work shall be completed, the depression which grew out of the financial disorders forced upon us by the war of rebellion will give place to the returning confidence and permanent prosperity which can rest alone on the fixed monetary standard of the commerical world,—on settled values and full security and certainty for the future.

Standing unalterably for the Constitutional principles of hard money, we insist that the greenback, instead of being dishonored and depreciated, shall be made as good as honest coin; that labor's dollar shall mean a real dollar; that the fluctuations and uncertainties which rob toil and paralyze trade shall cease; that our currency shall be made the best currency, by making all parts of it, whether paper or coin, equivalent, convertible, secure and steady; and all public servants, whether executive officers, Senators or Representatives, whose acts or votes conduce to this high object, deserve our approbation.

The Electoral Commission was a wise and honorable mode of settling a dangerous dispute. All parties were bound to abide its decision, and any attempt to undo or impair the conclusion it established is unpatriotic and revolutionary.

While sincerely seeking fraternal union in all just efforts and aspirations, we summon the people to renewed vigilance and unflinching warfare against the vast horde of claims and raids on the Treasury, which count for success on Democratic rule under the mastery of a solid South, and which would fall with special hardship on New-York, as the chief taxpaying State in the Union.

We demand free and unintimidated elections in the South as in the North, and the full recognition and observance of the equal rights and liberty of all citizens, as ordained by the amended Constitution; and until they shall be secured, the work of the Republican party will be unfinished.

We renew our declarations for the elevation of the public service on the basis of a secure tenure during the faithful performance of official duties for a fixed term, for the pure, frugal and efficient administration of National, State and local affairs, for unyielding resistance to any further land grants or subsidies to corporations or monopolies, for the grateful recognition of the brave soldiers and sailors of the Republic, and for common schools free from sectarian influence and unmenaced by sectarian appropriations.

While recognizing with satisfaction that many patriotic Democrats do not share its spirit and impulses, we arraign the dominant forces of the Democratic party as the constant disturber of the public tranquillity and confidence; as the wanton foe of publi

security in its persistent assaults upon the authority and stability of the established Government; as attempting to weaken the Nation by crippling the Army in a time of uncertainty and danger; as guilty of false pretences in claiming for the Democratic House a reduction in public expenditures, whose fraudulent character is proved by the necessity for heavy deficiency bills; as dependent on a solid South, and thereby subservient to all its demands; as aggravating the troubles of the country by mischievous agitation throughout the period of its supremacy in the House of Representatives; as faithless to the obligations of National honor, and the chief support of the wild schemes of inflation, repudiation and utter financial disorders which imperil public credit and business security; and its further or greater success would be a National calamity.

An emergency in the history of the country, second only to the great struggle for its existence, now confronts us. As then the Republican party was the sole organized political protection against National disruption, and patriotic citizens of whatever party names rallied under its standard for the defence of the Union, so now the Republican organization is the only efficient bulwark against National repudiation and disgrace. And it again invites all good citizens of whatever previous political ties to unite with it in preserving the National honor. To all Republicans this great exigency especially appeals to rise to its high obligations and join heart and hand for the triumph of those vital principles upon which the security and welfare of the Republic depend.

New-York Democratic.

[Adopted September 25.]

The Democratic party of the State of New-York reaffirms the following principles set forth in its platform adopted in 1874 and in 1877 and indorsed by a large majority of the people of this State:

Gold and silver coin and paper convertible into coin at the will of the holder, the only currency of the country; steady steps toward specie payments; the honest payment of the public debt. We congratulate the State and country upon the practical relative value of this greenback currency of the Government with gold and silver—the preservation of the public faith; a tariff for revenue; no Government partnership with protected monopolies; home rule, to limit and localize most jealously the powers intrusted to public servants, whether municipal, State or Federal; no centralization; equal and exact justice to all men; no partial legislation; no partial taxation; official accountability, rigidly enforced by all civil and criminal remedies; no private use of funds by public officers; corporations chartered by the State always subject to State supervision in the interest of the people; the party in power responsible for all legislation while in power; economy in public expenditure, that labor may be lightly burdened and the laborer fully paid for his work; uniform and equitable Excise laws; no sumptuary laws.

That the provisions of the State Constitution are mandatory in regard to the apportionment of the members of the Senate and Assembly; and the failure of the Republican party, for three successive years after the taking of the census, to so apportion the State is a grave crime against the people and a dishonest and infamous refusal to obey the plain directions of the fundamental law.

That by an infamous conspiracy of force and fraud the high officials and unrepudiated leaders of the Republican party annulled and reversed its Nation's choice for the Presidency, and put a defeated candidate in the chair of Washington, and cheated the people of that reform of the Federal Government which their ballots had demanded and ordained; and it is the stern resolve of the American people that such a fraud has been perpetrated for the last time.

That we point with pride to the honest, just and economical administration of Governor Robinson and our other Democratic State officers, and in the name of the Democratic party of the State of New-York we cordially and earnestly approve and indorse the same.

Ohio Republican.

[Adopted June 12.]

* * * The financial question having been disposed of by Congress, and the country at present needing repose in order that capital may seek investment, and that industries may revive, thus increasing the demand for labor, the situation ought to be accepted; and we oppose the further agitation of the question at this time as injurious to business and devoid of other than evil results. * * *

A tariff for revenue should be maintained and so adjusted as to secure incidental protection to home industry.

Ohio Democratic.

[Adopted June 26.]

Resolved, The commercial and industrial stagnation that has so long prevailed throughout the country, and the consequent and widespread suffering, is due directly to the pernicious financial legislation of the Republican party, which we hereby arraign for its acts, and charge:

1. That at a time when the country was weighted down with debt created on the basis of a full volume of paper added to both the precious metals as money, it enacted a sweeping change in the measures of value, wholly in the interest of moneyed capital, by demonetizing silver and decreeing the destruction of legal-tender paper, and thereby wrongfully added in effect hundreds of millions to the burden of debt and taxes upon the people.

2. By pursuing its merciless policy of contracting the paper currency and hoarding gold it has increased the value of money and securities that partake of the enhancement of money, and decreased the value of all other property, and especially of capital designed for productive use and required for the employment of labor, thus repressing instead of fostering industry, compelling idleness instead of sustaining trade and commerce.

And now this party in Ohio puts forward in its platform the declaration that the financial question has been settled. We deny this declaration, and while we congratulate the country that the downward course to bankruptcy and ruin involved in

the Republican policy has been partially avoided by the Democratic measures, passed at the late session of Congress, restoring the debt-paying power to silver dollars, made law in spite of a Presidential veto, and stopping the further destruction of greenbacks, we demand as further acts of justice, as well as measures of relief, the absolute repeal of the Resumption Act, and lawful liberation of the coin hoarded in the Treasury; the removal of all restrictions to the coinage of silver, and the reëstablishment of silver as a money metal, the same as gold—the same as it was before its fraudulent demonetization; the gradual substitution of United States legal-tender paper for National bank notes, and its permanent establishment as the sole paper money of the country, made receivable for all dues to the Government, and of equal tender with coin; the amount of such issues to be so regulated by legislation or organic law as to give the people assurance of stability in the volume of currency, and the consequent stability of the value; no further increase in the bonded debt, and no further sale of bonds for the purchase of coin for resumption purposes, but the gradual extinction of the public debt; rigid economy; the reduction of expenditures in all branches of the public service, and a tariff for revenue only.

Pennsylvania Republican.

[Adopted May 15.]

That it is uncompromisingly opposed to free trade, in whatever disguise presented, unchangingly devoted to home industry, and hereby avows its special and direct hostility to the Tariff bill now pending in Congress, the same being in the interest of importers and foreign manufacturers, and in opposition to American labor. * * *

That the Southern Republicans, white and colored, have our earnest sympathy in the unequal contest to which they are subjected for civil liberty and the maintenance of their constitutional privileges, and that in the interest of their guaranteed rights we demand from the General Government for them an equal and fair ballot, and that equality before the law which should be the basis of every government. * * *

Pennsylvania Democratic.

[Adopted May 23.]

That further contraction of the volume of United States legal-tender notes is unwise and unnecessary. They should be received for customs duties and reissued as fast as received. Gold, silver, and United States legal-tender notes at par therewith are a just basis for paper circulation. A close connection of the Federal Government with the business interests of the people through National banks tends to monopoly and centralization, but in changing the system, uniformity of notes, security of the noteholders, and protection of the capital invested, should be provided for. Treasury notes issued in exchange for bonds bearing a low rate of interest is the best form in which the credit of the Government can be given to paper currency. Labor and capital have equal demands upon and equal responsibilities to law. Commerce and manufactures should be encouraged so that steady employment and fair wages may be yielded to labor, while safety of investment and moderate return for its use belong to capital. Violence or breaches of order in support of the real or supposed rights of either should be promptly suppressed by the strong arm of the law.

The Republican party by its legislation in 1872, which reduced the tariff upon bituminous coal from $1 25 to 75 cents per ton; and upon iron, steel, wool, metals, paper, glass, leather, and all manufactures of each of them, 10 per cent, struck a fatal blow at the industries and labor of Pennsylvania. * * *

Our public debt should be held at home, and the bonds representing it ought to be of small denominations, in which the savings of the masses may be safely invested. * * *

Tennessee Democratic.

[Adopted August 15.]

We demand that the military shall be subordinate to the civil authority in fact as well as in theory; the repeal of laws which have destroyed our commerce; the repeal of the declaration that the currency bonds of the Government shall be paid in coin, and the payment in Treasury notes of so much of said bonds as may be found due after deducting the difference between the value of the gold paid and the currency due thereon according to contract; the unconditional repeal of the Resumption Act; that the odious National banking act be repealed, and greenbacks be substituted for the circulation of the National banks; that Treasury notes be made receivable for all Government dues; that no more interest-bearing bonds be issued; that all loans required by the Government be raised by the issuance of non-interest-bearing Treasury notes; that the coinage of silver be made unlimited, and while it is the cheaper metal, that it be paid to the public creditor exclusively upon all bonds justly payable in coin; that the value of all silver coins be regulated, and that they be made receivable for all Government dues and be recoined by the Government and paid out to its creditors; the repeal of the laws which deny the people of several States the right to determine for themselves whether they will authorize banks or not; that capital in every form be required to bear the burdens of Government equally with labor and production; that the present financial policy of the Government to contract the circulation of Treasury notes, disparage silver, magnify gold and National bank notes, be reversed, and every legitimate mode adopted to level the volume of our currency with silver and Treasury notes.

Texas Democratic.

[Adopted July —.]

* * * We demand, as further acts of justice as well as measures of relief, the repeal of the Resumption Act, the lawful liberation of the coin hoarded in the Treasury, the removal of all restrictions to the coinage of silver, fraudulently demonetized, the substitution of United States legal-tender for National bank notes, and its permanent reëstablishment as the sole paper money of the country, made receivable for all dues to the Government and of equal tender with coin, the amount of such issue to be regulated by legislative or organic law, so as to give to the people an assurance of sufficiency and st

bility in the volume of the currency and consequent stability of value. No further increase in the bonded debt; no further sale of bonds for the purchase of coin for resumption purposes, but a gradual reduction of the public debt by payment according to the original contract by which it was created: a rigid economy in all branches of the public service, and a tariff for revenue only.

We favor one currency for the Government and the people, the laborer and the office holder, the pensioner and the soldier, the producer and the bondholder.

We hold that the right of the States to tax property in the States is inviolable, and that United States bonds should bear the burden of Government equally with all other property, and any legislation that exempts said bonds from taxation is unjust and oppressive.

We declare that all bonds and obligations of the National Government ought to be paid in legal-tender notes of the United States, except where it is otherwise provided by the original law under which they were issued; and all that can be called in and paid now should be paid at once, and the remainder as soon as it can be lawfully done.

Wisconsin Republican.

[Adopted August 1.]

* * * We rejoice at the prospects of the resumption of specie payments by the close of the present year. A stable, non-fluctuating currency, possessing intrinsic value—coin, or gold, or silver, at the pleasure of the holder—is the only secure foundation of permanent business prosperity. Such a currency will impart that steadiness to prices which is an essential condition for the successful prosecution of legitimate industry and enterprise, and is equally demanded by the true interests of the laborer and the business man and the capitalist.

The value of all paper currency, whether issued by the Government or by the banks, consists in the promise it bears of payment, and in the degree of credit attached to that promise. If it cannot be converted at pleasure into currency of intrinsic value, it cannot remain at par, and its depreciation will be in proportion to the prospects of its being convertible within a longer or shorter period. The printed bits of paper which some wild theorists propose to employ as currency, and which they term "absolute money," containing no promise of payment and no intrinsic value, would soon become absolute in one respect only. They would be absolutely worthless. This and other chimerical projects by which it is proposed to find a cheap and worthless substitute for the measure of value accepted and employed by the civilized world are based upon delusion, if not dishonesty, and if adopted would result in disaster and shame. We hold it to be the duty of Republicans and all good citizens to oppose with uncompromising firmness all those mischievous theories, as well as the cognate doctrines of Communism and Internationalism, which menace society, individual liberty and the accumulated savings of industry. * * *

National Platform of the Greenback Party.

[Adopted at Toledo, Ohio, February 22.]

It is the exclusive function of the General Government to coin and create money and regulate its value. All bank issues designed to circulate as money should be suppressed. The circulating medium, whether of metal or paper, shall be issued by the Government, and made a full legal-tender for all debts, duties and taxes in the United States, at its stamped value.

There shall be no privileged class of creditors. Official salaries, pensions, bonds, and all other debts and obligations, public and private, shall be discharged in the legal-tender money of the United States, strictly according to the stipulations of the laws under which they were contracted.

That the coinage of silver be placed on the same footing as that of gold.

Congress shall provide said money adequate to the full employment of labor, the equitable distribution of its products, and the requirements of business, fixing a minimum amount per capita of the population as near as may be, and otherwise regulating its value by wise and equitable provisions of law, so that the rate of interest will secure to labor its just reward. * * * Government bonds and money should be taxed precisely as other property, and a graduated income tax should be levied for the support of the Government and the payment of its debts. Public lands are the common property of the whole people, and should not be sold to speculators nor granted to railroads or other corporations, but should be donated to actual settlers in limited quantities. * * * No monopolies should be legalized. * * * Such legislation should be had that the number of hours of daily toil will be reduced, giving to the working classes more leisure for mental improvement and their several enjoyments, and saving them from premature decay and death.

The adoption of an American monetary system, as proposed herein, will harmonize all differences in regard to tariff and Federal taxation, reduce and equalize the cost of transportation by land and water, distribute equitably the joint earnings of capital and labor, secure to the producers of wealth the results of their labor and skill, and muster out of service the vast army of idlers, who, under the existing system, grow rich upon the earnings of others, that every man and woman may, by their own efforts, secure a competency, so that overgrown fortunes and extreme poverty will be seldom found within the limits of our Republic. * *

That the contract system of employing labor in our prisons and reformatory institutions works great injustice to our mechanics and artisans, and should be prohibited.

The importation of servile labor into the United States from China is a problem of the most serious importance, and we recommend legislation looking to its suppression.

That we believe in the supremacy of law over and above all perishable material, and in the necessity of a party of united people that will rise above old party lines and prejudices; we will not affiliate in any degree with any of the old parties, but in all cases and localities will organize anew, as united National men, nominate for office and official positions only such persons as are clearly believers in and identified with this our sacred cause, and, irrespective of creed, color, place of birth, or past conditions of political or other servitude, vote only for men who entirely abandon old party lines and organizations.

* The unusually large payment of interest on the public debt during the fiscal year 1878 is accounted for by payments of interest which had accrued in former years, and by the fact that from July 1, 1877, to July 1, 1878, a large amount of 6 per cent bonds (interest payable January and July) were funded in bonds bearing 4 1-2 and 4 per cent interest, payable quarterly. Had the 6 per cent bonds not been converted, the interest thereon from January, 1, 1878, to July 1, 1878, would not have been due and paid until after the

beginning of the fiscal year 1879; but the quarterly interest on the 4 1-2 and 4 per bonds fell due and was paid during March and April of the fiscal year 1878, and thus caused an apparent increase of interest for the year. The interest falling due within the year was $99,735,461 63.

November 7, 1876, polls were opened at various points in the State for the election of a Representative in the XLVth Congress, but the Republicans declined to participate, the regular election having been in October. About 2,000 votes were polled for Thomas M. Patterson.

On December 13 the House, by a vote of 116 to 110, declared Patterson entitled to the seat, and he was sworn.

In 1878 an amendment to the Constitution was adopted providing that all officers enumerated in Article VI. shall reside respectively in the district, county, precinct, city or town for which they may be elected or appointed, and also providing for the manner of filling vacancies.

"The Leading American Newspaper."

THE NEW-YORK TRIBUNE.

For 1879 THE TRIBUNE hopes to continue with increasing success the work and the methods which through the year now ending have won such popular approval and borne such ample fruit.

A year ago THE TRIBUNE pointed out the danger to the tranquility of the country, to the Treasury, the currency and the National honor, from the alliance then forming between the Solid South and Tammany Hall. It declared that against this danger the old party of freedom, **still the party of the Churches and the Schoolhouses,** was the only bulwark; and in behalf of that party it renewed the old appeal to the National conscience, and the enlightened self-interest of the tax-payers.

In all this events have justified it. The year has disclosed the danger THE TRIBUNE predicted, and brought the deliverance it promised. **It now asks those who think well of what it did in this eventful year** to help widen yet further its influence by increasing its circulation for the next. It labored to harmonize the Republican party; to divert Republicans from attacks upon each other to attacks upon the common enemy. It exposed Southern claims. It denounced the Southern suppression of the negro vote. It resisted debasement of the currency. It endeavored to sustain the Treasury in advancing to specie payments. It strove to promote a practical reform in the Civil Service. It vindicated the legitimacy of the Republican Administration. It crushed assailants by demonstrating the infamous efforts of the Democratic leaders to buy the Presidency they had fairly lost at the polls. For these services a distinguished member of the Administration has declared that **the Republican party and the country owe THE TRIBUNE a debt of gratitude** so great that, despairing of full payment immediately, they must imitate the Treasury and fund it! Leading Republicans outside of and even opposed to the Administration are everywhere heartily expressing similar opinions.

THE TRIBUNE now warns the country that, inspiring as the late elections have been, they do not end the danger. The Democrats and the Greenbackers if united, could have reversed the verdict. They may be united next time. They already have the Solid South to begin with, as well as the evidence of the control their union would give in many of the Western States. To prevent such a union from sweeping the country we must keep the Republican party in the highest state of discipline and efficiency, and **must educate the voters.** If friends know any better agency for such political education than THE TRIBUNE, by all means use it; if not, they surely ought to make every effort to push THE TRIBUNE's circulation.

THE TRIBUNE is now spending more labor and money than ever before to deserve the distinction it has long enjoyed of **the largest circulation among the best people.** It is the only newspaper in the country maintaining a special telegraphic wire of its own between its office and the National Capital. Its Washington dispatches are much the fullest anywhere published. Its London correspondent, George W. Smalley, is recognized as the foremost in that field on the American Press. Its other foreign correspondence ranks exceptionally high. Its scientific, religious and literary intelligence is often fuller, and generally more newsy, than that furnished by journals expressly devoted to these specialties. Its critical departments, all conducted by the old heads, remain the acknowledged authorities:

NEW BOOKS..GEORGE RIPLEY, LL.D.	THE DRAMA.....WILLIAM WINTER.
MUSIC.....JOHN R. G. HASSARD.	ART.....CLARENCE COOK.

THE TRIBUNE continues to be the recognized medium adopted by leading thinkers and men of prominence in all professions for communicating with the public.

THE SEMI-WEEKLY TRIBUNE

Is specially adapted to the large class of intelligent readers too far from New-York to depend on its papers for the daily news, who, nevertheless, want the editorials, correspondence, book-reviews, scientific matter, lectures, literary miscellany, etc., for which THE TRIBUNE is famous. This is the cheapest, and, for remote country readers, the best edition of THE TRIBUNE published. It contains sixteen pages, and is in convenient form or binding. It is far the most successful Semi-Weekly in the country--having four times he circulation of any other in New-York.

THE WEEKLY TRIBUNE

Remains the great favorite for our substantial country population. A high authority has said of it that "THE WEEKLY TRIBUNE has done more to make good farmers and good citizens than any other single influence that has ever existed in this country." It is now larger than any of its rivals; its new form (..teen pages, carefully indexed and suitable for binding) has proved exceedingly popular, and its large, clear type, so different from that of most papers of its class, is a special attraction. Its Agricultural Department, under the special management of a experienced Agricultural Editor, with a staff of several assistants, and a large corps of special contributors, is more carefully conducted than ever, and it has always been considered the best. Its market reports are the official standard for the Dairymen's Association, and have long been the recognized authority on cattle, grain, and general country produce. There are special departments for the young, and for household interests; while poetry, fiction, and the humors of the day are all abundantly supplied.

TWO PAPERS IN ONE.

THE WEEKLY TRIBUNE is now so arranged as to make **two complete and separate papers** of eight pages each, the first containing the news and politics; the second, the correspondence, fiction, poetry, household departments, etc. **Both sides of the family** can thus enjoy the paper **at the same time.** During the past year readers have found this a specially attractive and convenient feature.

THE GREAT PREMIUM.

WEBSTER'S UNABRIDGED FREE.

Last year THE TRIBUNE offered to five years' single subscribers the unprecedented gift of WEBSTER'S UNABRIDGED QUARTO PICTORIAL DICTIONARY, which retails in all bookstores for $12. The offer proved probably the greatest success in the history of newspaper premiums. TEN THOUSAND of these huge Dictionaries were distributed, and *not one single subscriber* complained that he was dissatisfied with his premium. We have at last succeeded in renewing the very favorable contract with the publishers (which alone enabled us to offer this magnificent premium), **until April 1, 1870.** The publishers positively refuse to let it extend beyond that time. We therefore urge all to avail themselves of the offer at once, and to advise their friends and neighbors of the opportunity. We are extending the terms of the offer, this year, a little, as follows:

We will send Webster's Unabridged Pictorial Quarto Dictionary (edition of 1879) bound in sheep, the latest and best edition, as a gift to any one remitting us

$10 for a single five years' subscription, in advance, or, $16 for eight 1-year subscriptions to { THE WEEKLY TRIBUNE.

$15 for a single five years' subscription, in advance, or, $30 for ten one-year subscriptions to { THE SEMI-WEEKLY TRIBUNE.

$30 for a single three-years' subscription, in advance, to { THE DAILY TRIBUNE.

We believe this to be the most valuable and liberal newspaper premium ever offered. We cannot make it any more liberal, and to avoid useless correspondence we give notice that the Dictionary will only be sent on exact compliance with the above terms. It is not offered, under any circumstances, to persons remitting for clubs at regular club rates.

THE GREATEST PREMIUM YET

A $210 ESTEY ORGAN FREE!

THE TRIBUNE makes an offer to churches, musical societies and others, more amazing than anything yet done in the history of newspaper premiums. For 200 subscriptions from one Post Office, or its immediate vicinity, to THE WEEKLY TRIBUNE, at the lowest club rate ($1 25 each), we will send, postage paid, the 200 papers, addressed to individual subscribers, for one year, and will send also to the church or person forwarding the club the $210 Estey Organ, confessedly one of the best in the market—style 501, double reed, seven stops, viz.: diapason, melodia, viola, vox jubilants, tremolo, 1 forte and 11 forte. Thus, for 200 subscriptions to THE WEEKLY TRIBUNE at the lowest club rate, the club receives $250 in newspapers, and $210 in one of the finest organs of its size made in America.

TRIBUNE ALMANAC FOR 1880.

ECLIPSES.

In the year 1880 there will be six eclipses, four of the Sun and two of the Moon:

I. A Total Eclipse of the Sun, January 11, invisible in this country except along the Pacific coast and the region of the Rocky Mountains, where the Sun will be more or less partially eclipsed just before sunset. The central path of the eclipse begins near the Ladrone Islands, curves southward till it almost touches the Equator, and then runs in a northeasterly direction, passing south of Honolulu, and reaching the Pacific coast of the United States, near San Francisco, where the eclipse begins at 2:41 p. m. and ends a few minutes before sunset.

II. A Total Eclipse of the Moon, June 22, invisible here.

III. An Annular Eclipse of the Sun, July 7, invisible in America. It will be seen as a partial eclipse in a large part of South America, the South Atlantic Ocean and the Cape of Good Hope. The central line, along which only the eclipse will be annular, begins near the Falkland Islands, and follows a sharp curved path wholly confined to the higher latitudes of the South Atlantic.

IV. A Partial Eclipse of the Sun, December 1, invisible here.

V. A Total Eclipse of the Moon, December 16, visible only on the Pacific coast before the Moon sets. At San Francisco the eclipse begins at 5:35 a. m. and is total at 6:44 a. m., the Moon setting at 7:14 a. m., totally eclipsed.

VI. A Partial Eclipse of the Sun, December 31, visible in the eastern parts of the United States at sunrise, and for a short time afterward as follows, the beginning of the eclipse being invisible at the places named, because taking place before sunrise:

Place.	Begins.	Middle.	Ends.
	a. m.	a. m.	a. m.
Albany	invis.	8 04	8 59
Boston	"	8 17	9 14
Charleston	"	7 22	7 57
Chicago	"	invis.	7 43
Cincinnati	"	"	7 52
New-York	"	7 59	8 53
Philadelphia	"	7 51	8 43
Washington	"	7 43	8 34

Occultation of Mars.

There will be an occultation of Mars by the Moon on March 17 (St. Patrick's Day). At Washington the immersion occurs at 6:22 p. m. and the emersion at 7:38 p. m, the occultation lasting 1 hour 16 minutes. At New-York the immersion will take place about 15 minutes later. The Moon being then between six and seven days old, the planet will disappear behind its dark edge at an angle of about 90° east, by direct vision, from the north point of a perpendicular line passing through the centre of the Moon. Owing to the great distance of Mars from the Earth, however, the planet will not be conspicuous, and the occultation will, therefore, be much less striking than if Mars were near its opposition.

ABSTRACT OF PUBLIC LAWS

PASSED AT THE SECOND SESSION OF THE FORTY-FIFTH CONGRESS.

[December 2, 1878—March 3, 1879.]

CENSUS (TENTH).

Chap. CXCV.—The President shall appoint supervisors, not to exceed one hundred and fifty, and the Secretary of the Interior shall, on or before the 1st day of March, 1880, designate the number to be appointed within each State or Territory. Each supervisor of census shall apportion his district into subdivisions, and designate to the Superintendent of the Census, at Washington, suitable persons as enumerators. The enumeration shall commence on the first Monday of June, and be taken of that date. Each enumerator is required to complete and forward his returns to the supervisor of his district on or before the 1st day of July, 1880; and in any city having over 10,000 inhabitants under the census of 1870, the enumeration of population shall be taken within two weeks from the first Monday of June. Each supervisor shall receive $500 in full compensation for all services rendered and incurred by him. To enumerators in subdivisions, where the Superintendent of Census shall deem such an allowance sufficient, an allowance not exceeding two cents for each living inhabitant, two cents for each death reported, ten cents for each farm, and fifteen cents for each establishment of productive industry enumerated and returned, may be given in full compensation for all services. For all other subdivisions, rates of compensation shall be fixed in advance of the enumeration by the Superintendent of Census, with the approval of the Secretary of the Interior, according to the difficulty of enumeration; but the compensation allowed to any enumerator in any district east of the one hundredth meridian shall not exceed an average of $4 per day of ten hours' actual field-work each, and the compensation to any enumerator in any district west of the one hundredth meridian shall not exceed $6 per working day of equal length.

GOLD TRANSPORTATION.

Chap. XXXIII.—The amount paid for the transportation of gold coin from San Francisco to New-York shall not exceed one-fourth of one per cent, and for the transportation of silver one per cent, and for intermediate points at proportionate rates corresponding to the distance.

HEADSTONES AT SOLDIERS' GRAVES.

Chap. XLIV.—The Secretary of War is authorized to erect headstones over the graves of soldiers who served in the regular or volunteer Army during the war for the Union, and who have been buried in private, village or city cemeteries, in the same manner as provided by the law of March 3, 1873, for those interred in National military cemeteries.

INTERNAL REVENUE.—TAXATION.

Chap. PARTY PLATFORMS, 1879.

Iowa Republican.

[Adopted June 11.]

That the United States of America is a Nation, not a league. * * * That we approve the financial policy of the Republican party, and refer with pride to its results. Declare that the public debt shall be honestly paid, in honest money, and to this end we are in favor of keeping our coin circulation at its largest practicable volume, and of maintaining our paper currency where the Republican policy has placed it, at par with coin, and to the further end that the dollar earned by labor shall be worth as much as the dollar earned by capital. * * * Concerning further financial legislation we say: Let us have peace, undisturbed by Congressional tinkering, that our business interests may revive, the investment of more idle capital be encouraged, commercial interests fostered, and the general welfare promoted. * * * That the profit arising from the coinage of gold and silver should inure to the benefit of the Government. * * * Favor a wisely-adjusted tariff for revenue. * * * Demand a strict economy in the imposition of public taxes and the expenditure of public moneys.

Iowa Greenback.

[Adopted May 29.]

The General Government alone to issue money, the amount in circulation to be fixed by a Constitutional amendment upon a per capita basis, calling in of all United States bonds, and the payment of them in full legal-tender money. * * * That the National banks, as banks of issue, must be abolished by law, and that legal-tender greenback money of the United States shall be substituted for their circulation. * * * That we demand the unlimited coinage of the silver dollar of the present standard weight and fineness.

Maine Republican.

[Adopted June 26.]

That this country is a Nation, and not a confederacy of States, and that the National Government is supreme on all subjects lodged with it by the Constitution, one of which subjects is the right and duty of the National Government to protect the citizen in the exercise of all his constitutional and legal rights, none of which are more important than a free, fair ballot, uninfluenced by fraud or violence. * * * Believes now, as always, in good, honest money for the people, and opposes an irredeemable paper currency as the worst curse that can be inflicted upon a nation. Rejoices that Government promises to pay are now kept, and that the paper currency of the country is redeemable on demand in coin, so that now the dollar of the laborer is as good as the dollar of the capitalist. Condemns all schemes to tamper with the currency of the people, and thereby again unsettle public confidence, now, happily, just being restored.

Maine Democratic.

[Adopted July 1.]

That we are in favor of a currency of gold and silver and paper, the paper to be kept at a par with coin at all times, and are in favor of the free and unlimited coinage of silver.

Massachusetts Republican.

[Adopted September 16.]

The Republican party of Massachusetts at the close of the first quarter of a century of its history, pledging itself anew to the continued performance of the duties in which it originated and to the defence and maintenance of those principles upon which it was founded, and which are still essential to the peace, serenity and prosperity of the Republic, makes the declarations:

First—We affirm the doctrines heretofore proclaimed and maintained, that the United States of America is a Nation. That, while local self-government in all matters which belong to the States must be fully recognized, the National Government should secure to its citizens, from whom it claims all allegiance, complete liberty and exact equality in the exercise of their civil and political rights. That, whether assailed by political persecutions at home or menaced by tyranny abroad, all citizens of the United States, without distinction of origin, race, creed or color, must be protected by the National Government in all the rights granted to them by the Constitution and the laws. That our institutions rest upon the equality of all men before the law, and that a free ballot, uninfluenced by fraud, intimidation or force, and honestly conducted, is the right of every qualified voter, and we demand that elections shall be free from all interference by unlawful bodies of armed men, and shall be free from the interference of National or State military forces, except when employed as a part of the *posse comitatus*. We denounce that fierce partisan intolerance which prevents a free ballot, denies freedom of political opinion and action, and takes from any of the people the right to choose their homes and to control and enjoy the fruits of their labor.

Second—We deprecate the course of the members of the Democratic party who have undertaken to revive sectional animosities for the purpose of securing political ascendancy in the Southern States, and who have revived the memories of sectional strife by the defiant declaration of a purpose to repeal laws made necessary by the war, and enacted to secure the results of the war, and we condemn their attempts to secure by legislation what was not accomplished by arms, namely, the establishment under the name of State Sovereignty of those pernicious doctrines which destroy the national su-

premacy, and which, in the past, have led to secession and civil war.

Third—The pledges of the Republican party to maintain the National honor and to preserve the National credit have been redeemed in the face of bitter opposition by the prompt resumption of specie payments and the reduction both of the principal and the interest of the public debt. And we congratulate our fellow-citizens upon the restoration of confidence and the revival of business which have followed the honest, prudent and wise management of public affairs under Republican administration. We are opposed to repudiation in all its forms, either by a "scaling" of debts or a debasement of the legal-tender circulation. We insist that the paper and coin circulation of the country shall at all times be maintained at par with the gold standard of the commercial world.

Massachusetts Regular Democratic.

[Adopted October 7.]

The Democrats of Massachusetts, in convention assembled, reaffirm the National Democratic platform of 1876 as an authoritative exposition of the principles of our party, and congratulate our political brethren of the whole country that these principles were indorsed in the National canvass by the suffrages of a decided majority of the American people and the Electoral College.

We denounce upon the guilty Republican party stern retribution for the great public crime by which the people were defrauded of their right to be governed by a ruler of their choice, and by which the elective principle was wounded in its most vital part. * * *

Our thanks are due to the Democrats in Congress for their efforts to enforce economy in public expenses, to abolish useless offices, and to correct manifold abuses in public affairs, not least of which are the exclusion of intelligent citizens from the jury box and the levying and maintaining of an army of official hirelings around the polls for partizan purposes.

We believe in self-government by the people, and desire that the polls shall be free from the interference of Federal bayonets directed by the intrigues of a Federal partisan Executive.

We believe the purity of the ballot-box can be better preserved through State authority than by Federal interference.

We protest against laws which authorize the arrest of citizens at the polls without warrant or hearing, and the suppression of their votes by imprisoning their persons until after the election, as upturning the foundation of free government, and we call on Congress to aid the people and rescue the freedom of the elections, undeterred by Republican clamors or Presidential vetoes.

The Democratic party has always denied that any Constitutional power existed in the Federal Government to make anything a legal tender in the payment of debts except gold and silver.

We affirm the obligation of public and private contracts, and demand that public money ought to be kept in the Treasury of the United States, free from control or use by speculators or favorite bankers.

We rejoice with the country at the large and renewed prosperity that attends agricultural and manufacturing pursuits, but we deprecate that Republican policy which, having destroyed our ship-building, placed the carrying trade of the products of our soil in the control of foreign flags, and almost banished our flag from the seas, and imperilled the pursuit of the fisheries among our hardy population, has rewarded Great Britain with spoils she never could have conquered, and abandoned the trident of the seas to her hands. * * *

New-York Republican.

[Adopted September 2.]

The Republicans of New-York, pledging themselves anew to National supremacy, equal rights, free elections and honest money, declare these principles:

1. The Republic of the United States is a Nation and not a league. The Nation is supreme within its own Constitutional sphere. It is provided with power to guard its own life, to protect its own citizens, to regulate its own elections and to execute its own laws. The opposite doctrine of State Sovereignty is the baleful mother of nullifications, secession and anarchy. Republicanism stands for National supremacy in National affairs and State Rights in State concerns. Democracy stands for State Sovereignty, with its own twin heresy that the Union is a mere confederation only of States.

2. To refuse necessary supplies for the Government with the design of compelling the unwilling consent of a coördinate and independent branch to odious measures is revolution. To refuse appropriations for the execution of the existing and binding laws is nullification. We arraign the Democratic Representatives in Congress as guilty both of revolutionary attempts and nullifying schemes, and we reprobate their action as calculated to subvert the Constitution and to strike at the existence of the Government itself.

3. The safety of the Republic demands free and pure elections. The Democratic Congress has attempted dictation by caucus, by threats of starving the Government, and by months of disturbing agitation, to break down the National election laws. We denounce this effort as a conspiracy to overthrow the safeguards of free suffrage, and to open the ballot-box to the unchecked domination of the rifle clubs of the South and the repeaters of New-York. We declare our uncompromising opposition to any repeal of these just protective laws, and the Republican Senators and Representatives in Congress for their resistance to this attempt, and President Hayes for his veto messages, deserve and receive our hearty approval.

4. The Republican party neither justifies nor tolerates military interference with elections. It seeks only to protect the ballot-box from the interference of force and fraud. It repels the false charges and denounces the false pretences of conspirators who, while professing free elections, everywhere sustain mob law in the South; while inveighing against troops at the polls to protect citizens, refuse to prohibit armed clubs from surrounding the ballot-box to intimidate them, and while affecting that the soldier's bayonet will overawe free elections, remain silent when the assassin's bullet seals the fate of political independence.

5. We call upon the people to remember that the Democratic party fored the extra session of Congress without warrant or ex-

Digitized by Google

cuse; that it prosecuted its partisan purposes by revolutionary methods; that it persistently obstructed Resumption, and still constantly presses disturbing measures; that it reopens sectional questions closed by the National triumph, and threatens to repeal the war legislation: that its Southern element answers conciliation only with violence: that its hope of success rests alone on a Solid South, and that its triumph would make the Solid South the ruling force of the Nation. We recognize that the free body of the people who defended the Union, of whatever party name, are equally patriotic and equally interested in good government, and we earnestly invoke them to unite in resisting the dangerous designs of a party organization, under the sway of those who were lately in rebellion, and seek to regain in the halls of legislation what they lost on the field of battle.

6. The successful resumption of specie payments, despite Democratic prediction and hostility, is the crowning element of the Republican financial policy. Followed by returning National prosperity, improved credit, a refunded debt and reduced interest, it adds another to the triumphs which prove that the Republican party is equal to the highest demand. Our whole currency should be kept at par with the monetary standard of the commercial world, and any attempt to debase the standard, to depreciate the paper or deteriorate the coin should be firmly resisted.

7. The claims of the living and the memories of the dead defenders of the Nation conjure us to protest against the partisan and unpatriotic greed which expels old Union soldiers from their well-deserved rewards and advances Confederate soldiers to their places.

8. As the pledge and proof of its economy in State administration, the Republican party, in spite of prolonged Democratic resistance, proposed and passed the Constitutional amendments which restrict the expenses of the canals to their receipts, and reform the whole system of canal and prison management, and by extinguishing the public indebtedness and relieving the people from any further tax, therefore it effected a great saving in State taxation. These fruits of Republican measures the Democrats have brazenly attempted to appropriate as their own. Appealing to the records in support of our declaration, we pronounce their claims unfounded, and hold up their authors as public impostors.

9. The irregularities of taxation which press most upon those least able to bear them should be remedied. To this end the Republican Legislature created a commission to revise the assessment and tax law, and to reach a class of property which now largely escapes, and we remind the people that this salutary reform was unwarrantably defeated by the present Democratic executive.

10. Moneyed and transportation corporations are not alone the works of private enterprise, but are created for public use, and with due regard to vested rights, it is the clear province and the plain duty of the State to supervise and regulate such corporations as to secure the just and impartial treatment of all interested, to foster the industrial and agricultural welfare of the people, and with a liberal policy favor the public water ways, and maintain the commercial supremacy of the State. We look to the inquiry now in progress under the direction of the Legislature to develop the facts which will guide to all needed action.

New-York Democratic.

[Adopted September 11.]

The Democratic party of the State of New-York, in convention assembled, profoundly sensible of the important consequences depending on the immediate result of their deliberations, do declare and reassert the principles of popular liberty and rights laid down by Washington, Jefferson, and the other founders of the Republic. We hold to the Constitution with all its amendments sacredly maintained and enforced, and to the rights of the States under the Constitution. The tendencies of the Republican party to centralization and consolidation are contrary to the principles of our institutions. The United States form a Nation in the sense, the extent and for the purposes defined in the Federal Constitution, and we resist every attempt to transform it into an empire. We insist on unity, fraternity and concord, and that the issues settled by the war shall not be revived. We deprecate the efforts of the Republican managers to revive sectional feuds and to rekindle the passions of the past. We demand honest elections and an honest count of votes. Never again by fraud or force shall the popular will be set aside to gratify unscrupulous partisans.

The Democracy oppose all favoritism. No single interest or class of persons should be protected at the expense of others. Democracy means the government of the whole people, for the whole people and by the whole people; but if any class is to receive special consideration it should be the working people, whom all other governments oppress and crush. The rights of the people should be scrupulously protected from the encroachments of capital and the despotic greed of corporations.

The Democracy believe now, as they have always believed, in gold and silver as the Constitutional money of the country. We condemn the speculative methods of the present Secretary of the Treasury, the questionable favoritism he has shown to particular monetary institutions or so-called "syndicates" and the extravagance he has permitted in his department in connection with his refunding schemes. We look with shame and sorrow on the disgraceful repudiation of all their professions of civil service reform by the Executive and his supporters. Federal offices have been freely given for despicable partisan services; leading officers of the Government are making partisan speeches, managing political campaigns and requiring their subordinates to contribute to campaign funds in derogation of every principle and promise of an honest civil service. The hundred and four thousand Federal officers constitute an army moving under a single direction to keep the Republican party in power, and this vast patronage is now used as a corruption fund against the people. We congratulate the people of New-York on the results of Democratic administration, in the payment of the State debt, the reduction of expenses and the diminished burden of taxation. We condemn the efforts of demagogues to create jealousy and antagonism between the City of New-York

Digitized by Google

and the rest of the State, when their interests are identical, and the growth of the one is the prosperity of the other. The people of New-York—farmers, manufacturers and merchants alike—demand that they shall have all the advantages which accrue to them from their favorable position, and that the railroads they have chartered and endowed with vast and profitable privileges shall be operated for their benefit and not for their ruin. We therefore indorse as our expression of the foregoing principles the following:

The Democratic officers of the State of New-York, by the ability and fidelity in which they have discharged their duty during the past three years, by their conscientious application of Constitutional tests to the acts of every department of the State Government, by their successful resistance to private and partial legislation, and by their economic conduct of the finances and reduction of expenses of the State Government, have entitled themselves to the gratitude of their fellow-citizens of all parties.

1. Honesty, efficiency and economy in every department of the Government.

2. All property should bear its just proportion of taxation, and we pledge the Democratic party to reform the laws of assessments to that end.

3. Lessening the burdens and increasing the advantages of the working people.

4. The equal protection of the rights of labor and capital under just laws.

5. The railroads prohibited by law from unjust discrimination, and from favoring localities or individuals.

6. The tolls upon the canals to be kept at the lowest rates possible consistent with economical and efficient management.

7. The maintenance of the public schools, the pride and hope of a free State.

8. Prisons for the punishment and reformation of criminals, and not for the injury of honest labor, which should be protected as far as possible from such competition.

9. Municipal self-government in local affairs.

10. That the successful efforts of our Democratic Representatives in Congress in restoring a fair and intelligent jury system, and in protecting the freedom of the ballot and preventing the unconstitutional interference of the Federal Administration with the State elections, are approved, and the action of the Executive in vetoing the legislation designed to prevent the presence of armed soldiers and the employment of paid Federal supervisors and marshals at the polls, and the use of the public funds for this purpose is denounced by the Democracy of the State of New-York.

11. And as the foundation of all liberty and prosperity, privileges and rights, under our Government, we shall continue to uphold a system of untrammeled suffrage absolutely free from Federal force or supervision. It is the duty of the State, alike in the interest of taxation, temperance, and equal and exact justice to the community, to make such revision of the Excise laws as will better secure the rights of the citizens to life, liberty, property and public order.

New-York Greenback-Labor.

[Adopted August 29.]

That the National bank currency shall be withdrawn, and that all money that may be used by the people—whether gold, silver or paper—shall be issued by the general Government, and be made a full legal-tender for all debts and dues, public and private, the volume of such money to be about $50 per capita, or sufficient to meet all the requirements of trade. That the established volume of the currency shall be increased from time to time in a direct ratio with the increase in the business and population of the country, so as to maintain for the dollars as nearly as possible a uniform purchasing power. That all the new issues of paper money shall be used to cancel the interest-bearing debt of the Nation, to promote needed public improvements, and to pay current expenses. That the surplus money now in the Treasury of the Nation shall be used to cancel the interest-bearing debt. That the National Government shall issue no more interest-bearing obligations, and that outstanding bonds shall be paid and cancelled at once. That the postal savings banks shall be established. The equal taxation of all property. That the salaries paid public officers shall be reduced to the basis of just compensation for services rendered, and all unnecessary offices abolished. That there shall be proper legislation for the purpose of collecting and preserving reliable statistics, to form the basis of intelligent action on all labor questions, to the end that labor may be fully and constantly employed and justly compensated. The establishment of just and equitable rates for railroad fare and transportation. That the Legislature, at the earliest moment possible, shall pass a law giving to mortgagees of real estate the right of redemption for five years after sales. That reasonable limitation laws shall be enacted to prevent land monopolies. The abolition of the State Prison contract system. That no political assessments on candidates for office or office-holders shall be permitted in this party. A reduction of the legal rates of interest. That a debt due for labor performed shall take precedence of all other claims. That no more public lands shall be voted to corporations, but that they shall be held for actual settlers. That we favor a tariff which shall protect American industry and manufacturers. That the Government shall faithfully perform its pledge made to the Union soldier at the time of enlistment, to wit: That they receive 160 acres of land on being discharged, and an equitable payment per month to each soldier, according to the value of the full legal tender dollar.

Ohio Republican.

[Adopted May 28.]

That the Republican party of Ohio, reaffirming the cardinal doctrines of its adopted faith, as heretofore proclaimed, especially pledges itself anew to the maintenance of free suffrage, equal rights, the unity of the Nation, and the supremacy of the National Government in all matters placed by the Constitution under its control.

That the financial administration of the Government by the Republican party, in accomplishing the great work of the resumption of specie payments, in restoring our currency to a par value, in greatly reducing the burden of the National debt, in refunding a large proportion of the same at a rate of interest one-third less than the former rate, thereby alone saving to the

Treasury $13,000,000 a year, and in enhancing the National credit to a standing never before attained, is a source of just pride to the Republicans of Ohio, and deserves the warm approbation of the American people.

Ohio Democratic.

[Adopted June 4.]

That we reaffirm the financial principles heretofore advocated by the Democratic party of Ohio; that the issue of money in any form, and the regulation thereof belong to the General Government alone, and ought not to be delegated or intrusted to individuals or corporations; that we therefore oppose the perpetuation of the present National banking system as a means of control over the currency of the country, and demand the gradual substitution of Treasury notes for National bank currency, to be made receivable for all dues and a legal tender equally with coin, such Government issues to be regulated upon principles established by legislation or organic law so as to secure the greatest possible stability of value. * * * Demanding the full restoration of silver to its original place as a money metal, the same as gold.

Ohio Greenback.

[Adopted at Columbus, June 4.]

That the General Government should issue an ample volume of full legal-tender currency to meet the business needs of the country, and to promptly pay all of its debts. * * * Inflexibly opposed to the issue by the Government of interest-bearing bonds of any description, for any purpose whatever. The National banking system should be immediately abolished. * * * A tariff amply sufficient for protecting American industries should be maintained till a free financial system may have shown it to be unnecessary to tax labor for the support of capital. All internal revenues should be dispensed with, and a graduated income-tax substituted. We demand the immediate calling in and payment of all United States bonds in full legal-tender money.

Pennsylvania Republican.

[Adopted July 23.]

* * * In favor of the discharge of the National debt in coin, according to the understanding between the Government and the lender; of a paper currency redeemable in coin, and of the existing National banking system. * * * Demand that our present financial system remain undisturbed. * * * That to the policy and practice of protection to home industry and home production inaugurated and sustained by the Republican party, we are indebted for the growth and development of our domestic and foreign commerce, and for the prosperous condition and strength of the National finances, and that to the continuance of that policy must we look in the future for assured prosperity and peace throughout our whole country. In fostering the same we desire to insure constant employment to labor at remunerative wages. * * * That the United States of America is a Nation, not a league. Its Constitution, and all laws made in pursuance thereof, are the supreme law of the land, anything in the constitution or laws of a State to the contrary notwithstanding.

Pennsylvania Democratic.

[Adopted July 16.]

That the Democratic party, as of old, favors a Constitutional currency of gold and silver, and of paper convertible into coin.

Pennsylvania Greenback.

[Adopted July 15.]

* * * In favor of the payment of the National debt strictly in accordance with the stipulations of the contract under which it was created, and that no more interest-bearing bonds of the Federal Government be issued. * * * That the Federal Government only shall issue money; that such money shall be full legal tender, and that full legal-tender greenbacks shall be substituted for National bank notes. * * * Demand, for the sake of economy and convenience, that the trade dollar and fractional silver coin be replaced by fractional paper currency. * * * Demand the enactment of an income tax law.

IN THE STATES.

CALIFORNIA.—A new Constitution, making complete changes in the government of the State, was adopted at the September election.

CONNECTICUT.—An amendment providing that elections for the General Assembly shall be biennial, the members to hold their offices for two years, and that if this be adopted there should be no election on the Tuesday after the first Monday of November, 1879, was submitted to the people at a special election in September; also, an amendment providing that the Judges of the Supreme and Superior Courts shall remain upon the bench until seventy-five, instead of until seventy years of age. Both amendments were rejected by the following vote: For biennial sessions amendment, 21,430; against, 46,019. For the judiciary amendment, 18,002; against, 49,221.

INDIANA.—At the election on the first Monday in April, 1880, the following amendments will be voted upon by the people:

First—Requiring every voter to be registered, and to have resided in the State six months, in the township sixty days, and in the ward or precinct thirty days immediately preceding election, before being entitled to vote.

Second—Striking out the words "No negro or mulatto shall have the right of suffrage" from Section 5, Art. 2, of the Constitution.

Third—Providing that all general elections shall be held on the first Tuesday after the first Monday in November, township elections to be held at such times as may be provided by law, and the General Assembly to fix the time for electing all Judges of the Courts.

Fourth—Striking the word "white" from the Constitution.

Fifth—Regulating the fees and salaries of county officers on the basis of population.

Sixth—Substituting the words "such other Courts" for the words "such inferior Courts," in the 7th Article, so as to enable the Legislature to establish other courts not inferior in jurisdiction to the Circuit Court.

Seventh—Providing that no political or municipal corporation in the State shall ever become indebted, in any manner or for any purpose, to an amount in the aggregate exceeding 2 per centum on the value of the taxable property within said corporation, and all bonds or obligations in excess of such amount given by such corporations shall be void: except that in time of war, foreign invasion or other great public calamity, upon a petition of a majority of property owners, obligations may be incurred to the amount petitioned for.

MAINE.—An amendment providing that the Governor and members of the Legislature shall be elected biennially, and hold office two years succeeding their election, was submitted to and adopted by the people on September 8. The first election under the amendment will be held on the second Monday of September, 1880, and the first meeting of the Legislature under the same will be on the first Wednesday of January, 1881.

MISSISSIPPI.—The following amendment was rejected at the November election:

"The political year shall begin on the first Monday in January; the Legislature shall meet at the seat of government on the first Tuesday after the first Monday in January, A. D. 1882; also on the first Tuesday after the first Monday in January, 1883, and biennially thereafter, unless sooner convened by the Governor. The time and place of meeting may be altered by law.

"A general election, by ballot, shall be held on the first Tuesday after the first Monday in November, A. D. 1880, and biennially thereafter. All officers who go into office on the first Monday in January, 1882, shall be elected at the general election in 1880. All officers who go into office on the first Monday in January, 1880, and all officers who go into office on the first Monday in January, 1882, shall hold their respective offices for three years, but the constitutional terms of their successors shall not be hereby affected. Electors, in all cases, except in cases of treason, felony and breach of the peace, shall be privileged from arrest during their attendance at elections, and the going to and returning therefrom."

NEVADA.—The following constitutional amendments have been adopted: That no public funds of any character whatever shall be used for sectarian purposes. Striking the word "white" from section 1 article 2 of the constitution.

OHIO.—Amendments were submitted, October 14, relating to the Judiciary, to the election of Senators and Representatives, to the election of State officers and to the election of township officers, extending the term of township trustees from one to three years. NOTE.—The expenditures for 1869, 1870, 1871, 1872, 1873, 1874, 1875 and 1876 have been analyzed at the Treasury Department, and the amounts paid directly on account of the rebellion were as follows:

1869	$199,623,662 24	1871	$199,745,220 93	1873	$157,352,415 81

1875	$147,882,034 75				
1876	140,919,679 93				

‡ The unusually large payment of interest on the public debt during the fiscal year 1878 is accounted for by payments of interest which had accrued in former years, and by the fact that from July 1, 1877, to July 1, 1878, a large amount of 6 per cent bonds (interest payable January and July) were funded in bonds bearing 4 1-2 and 4 per cent interest, payable quarterly. Had the 6 per cent bonds not been converted, the interest thereon from January, 1, 1878, to July 1, 1878, would not have been due and paid until after the beginning of the fiscal year 1879; but the quarterly interest on the 4 1-2 and 4 per cent bonds fell due and was paid during March and April of the fiscal year 1878, and thus caused an apparent increase of interest for the year. The interest falling due within the year was $99,735,461 63.

¶ Includes $5,373,000 on Arrears of Pensions act.

‖ Includes $5,500,000 in payment of the Halifax award, and $3,597,516 41 on account of the Dis't of Col.

** The funding operations involved an increase of interest on public debt. Next year this sum will be largely reduced.

The new constitution was adopted by a large majority, and the debt ordinance, which was submitted to a separate vote, was also approved by a majority of about 5,000 votes, as indicated by the returns received up to the time of going to press. The debt ordinance provides for a reduction of the interest on the $12,000,000 of debt by proposing to pay, instead of 7 per cent, 2 per cent annually for the next five years, 3 per cent for the following fifteen, and 4 per cent thereafter. No interest is to be paid in January, 1880. Bondholders not willing to accept these terms have the option of exchanging their bonds for new bonds representing 75 per cent of their face value, and bearing 4 per cent interest.

ADDENDUM.

MAINE.—December 17, 1879, the Governor and Council have announced that, after examining the papers, they have certified the election of 20 Fusion Senators and 11 Republican, and the election of 78 Fusion Assemblymen and 61 Republican. For five cities—Portland, Bath, Lewiston, Rockland and Saco, with twelve representatives—no certificates have been issued. The result of the count is to dissipate the Republican majority of 7 in the Senate and 29 in the House, and to substitute a Fusion majority of 9 in the Senate and 17 in the House—making a net change of 62 votes. As there was no choice of Governor by the people, the Legislature will choose a Governor. Much excitement has followed the action of the Governor and Council. At this date, the result of the controversy is uncertain.

LOUISIANA.—Complete, but unofficial, returns show a majority of 80,751 for Wiltz for Governor, and 10,478 for the ordinance scaling the public debt. The majority for the new Constitution is 59,148, but 26,378 negative votes being returned. The Senate will consist of 5 Republicans and 31 Democrats: and the House of 17 Republicans, 76 Democrats, 2 Independents and 1 Greenbacker. Democratic majority on joint ballot, 82.

KENTUCKY.—The precise strength of parties in the Legislature is: *Senate*—4 Republicans, 34 Democrats. *House*—Republicans 17, Democrats 83—Democratic majority on joint ballot, 96.

U. S. SENATOR.—On December 16, 1879, William Mahone was elected U. S. Senator from Virginia to succeed Robert E. Withers, from March 4, 1881, to March 3, 1887. The vote was: *Senate*—Mahone, 23, Withers 13, Williams C. Wickham 3, John W. Daniel 1. *House*—Mahone 56, Withers 40, Wickham 2. [Mahone's vote was made up of 'Readjuster' Democrats and all the Republicans except five.]

CORRECTION.—On page 32, in the table of "imports" for 1879, the figures showing the value of goods "brought in American vessels" should be $143,590,353, not $743,590,353.

The O'Conor vote given on page 41 should be credited to 1872.

Health is Wealth.—Health of Body is Wealth of Mind.

RADWAY'S

SARSAPARILLIAN RESOLVENT.

Pure blood makes sound flesh, strong bone and a clear skin. If you would have your flesh firm, your bones sound without caries, and your complexion fair, use RADWAY'S SARSAPARILLIAN RESOLVENT.

A remedy composed of ingredients of extraordinary medical properties essential to purify, heal, repair, and invigorate the broken-down and wasted body—QUICK, PLEASANT, SAFE and PERMANENT in its treatment and cure.

No matter by what name the complaint may be designated, whether it be Scrofula, Consumption, Syphilis, Ulcers, Sores, Tumors, Boils, Erysipelas, or Salt Rheum, diseases of the Lungs, Kidneys, Bladder, Womb, Skin, Liver, Stomach, or Bowels, either chronic or constitutional, the virus of the disease is in the BLOOD which supplies the waste and builds and repairs these organs and wasted tissues of the system. If the blood is unhealthy, the process of repair must be unsound.

The Sarsaparillian Resolvent not only is a compensating remedy, but secures the harmonious action of each of the organs. It establishes throughout the entire system functional harmony, and supplies the blood vessels with a pure and healthy current of new life. The skin, after a few days' use of the Sarsaparillian, becomes clear and beautiful. Pimples, Blotches, Black Spots, and Skin Eruptions are removed; Sores and Ulcers soon cured. Persons suffering from Scrofula, Eruptive Diseases of the Eyes, Mouth, Ears, Legs, Throat and Glands that have accumulated and spread, either from uncured diseases or mercury, or from the use of *Corrosive Sublimate*, may rely upon a cure if the Sarsaparillian is continued a sufficient time to make its impression on the system. FOR THE PRESIDENTIAL YEAR.

"The Leading American Newspaper."

THE NEW-YORK TRIBUNE FOR 1880.

During the coming Presidential year THE TRIBUNE will be a more effective agency than ever for telling the news best worth knowing, and for enforcing sound politics. From the day the war closed it has been most anxious for an end of sectional strife. But it saw two years ago, and was the first persistently to proclaim the new danger to the country from the revived alliance of the Solid South and Tammany Hall. Against that danger it sought to rally

THE OLD PARTY OF FREEDOM AND THE UNION.

It began by demanding the abandonment of personal dislikes, and set the example. It called for an end to attacks upon each other instead of the enemy; and for the heartiest agreement upon whatever fit candidates the majority should put up against the common foe. Since then the tide of disaster has been turned back; every doubtful State has been won, and the omens for National victory were never more cheering. The Solid South and its Northern allies favored Repudiation, and we have kept the Public Faith. They favored Inflation, and we have restored Specie Payments. They sought to break down the safeguards of the ballot-box, and we have maintained the election laws.

THE TRIBUNE'S POSITION.

Of THE TRIBUNE'S share in all this, those speak most enthusiastically who have seen most of the struggle. The Michigan State Committee officially urged the circulation of THE TRIBUNE as the best means of educating the voters and bringing out the vote. The Maine Republicans declared that no other agency made so many votes. Ohio, Pennsylvania and New-York tell the same story.

THE TRIBUNE is now spending more labor and money than ever before to hold the distinction it has long enjoyed of ***the largest circulation among the best people.*** It secured, and means to retain it, by becoming the medium of the best thought and the voice of the best conscience of the time, by keeping abreast of the highest progress, favoring the freest discussion, hearing all sides, appealing always to the best intelligence and the purest morality, and refusing to cater to the tastes of the vile or the prejudices of the ignorant.

SPECIAL FEATURES.

The distinctive features of THE TRIBUNE are known to everybody. It gives all the news. It has the best correspondents, and retains them from year to year. It is the only paper that maintains a special telegraphic wire of its own between its office and Washington. Its use of the Ocean Cables during the coming year for foreign news will be more marked than ever. Its scientific, literary, artistic and religious intelligence is the fullest. Its book reviews are the best. Its commercial and financial news is the most exact. Its type is the largest; and its arrangement the most systematic.

The Semi-Weekly Tribune

is by far the most successful Semi-Weekly in the country, having four times the circulation of any other in New-York. It is specially adapted to the large class of intelligent, professional or business readers too far from New-York to depend on our papers for the daily news, who nevertheless want the editorials, correspondence, book reviews, scientific matter, lectures, literary miscellany, etc., for which THE TRIBUNE is famous. Like THE WEEKLY it contains sixteen pages, and is in convenient form for binding.

The Weekly Tribune

remains the great favorite of our substantial country population. It revises and condenses all the news of the week into readable shape. Its agricultural department is more carefully conducted than ever, and it has always been considered the best. Its market reports have long been the recognized authority on cattle, grain and general country produce. There are special departments for the young, and for household interests; the new handiwork department, already extremely popular, gives unusually accurate and comprehensive instructions in knitting, crocheting, and kindred subjects; while poetry, fiction and the humors of the day are all abundantly supplied. THE WEEKLY TRIBUNE *is now so arranged as to make* ***two complete and separate papers*** *of eight pages each, the first containing the news and politics; the second, the correspondence, fiction, poetry, household departments, etc.* ***Both sides of the family*** *can thus enjoy* ***the paper at the same time.*** The verdict of the tens of thousands of old readers who have returned to it during the past year is that they find it better than ever. Increasing patronage and facilities enable us to reduce the rates to the lowest point we have ever touched, and to offer the most amazing premium yet given.
